

“Fun, Motivating Solutions Are Available!”

“Pets with behavioural problems can be well trained but may exhibit problematic behaviours. This is where a qualified Animal Behaviourist can help.”

Dionna Newton
BSc (Hons) AdvDipCABT VN

“We work with both you and your vet!”

“What do you mean I can't dig holes in the garden anymore? You better book me into a therapist...”

WHAT IS AN ANIMAL BEHAVIOURIST?

Animal Behaviourists know how animals think. Some people call us Pet Whisperers. We are trained Animal Psychologists who understand how animals think, feel and act the way they do. We know how to solve problem behaviours and can also prevent problems from ever taking hold. The result is happier pets, happier owners and better communication between the two!
